

## Natural gas non-condensing boilers: input capacity 500-999 MBTUH

*Rebates for your business*

Natural gas non-condensing boilers must meet a thermal efficiency of 85 percent or greater and have an input capacity between 500 and 999 MBTUH to be eligible for a rebate from energySMART, a Nicor Gas program. As of the date indicated at the bottom of this page, the following models have been verified as eligible for this rebate by energySMART. Additional requirements apply. Visit [nicorgasrebates.com](http://nicorgasrebates.com) for complete details and to verify eligibility.

energySMART offerings and availability of funding are subject to change. To ensure eligibility, please use the most current qualifying products list available at <http://nicorgasrebates.com/your-business/rebates-for-your-business>

energySMART, a Nicor Gas program, is a multi-year program funded by Nicor Gas customers in compliance with Illinois law.
